UNAUDITED FINANCIAL REPORT TO THE SHAREHOLDERS

Review of Quarter 1

For the three months ended 31 March 2024, Caribbean Assurance Brokers (CAB) reported unaudited net profit of \$3.2 million. This represented a reduction of \$13.8 million or 81% below the prior year comparative period profit of \$17.9m.

The company's total income for the quarter under review was \$148.3 million, an increase of \$34.3 million or 30.1% above the \$113.9 million of the comparative 2023 period, representing significant growth in total income. This growth in income was primarily attributable to an increase in revenue, and other operating income. Revenue was \$119.9 million, an increase of \$18 million or 18% above the \$101.9 million of the prior year comparative period. This 18% increase in revenue was mainly attributable to the increase in both the Corporate and Individual lines of business as a consequence of the expansion of the company's sales force.

Other operating income of \$11.3 million was slightly lower by \$12.1 million or 7.0% below that of the comparative period of 2023.

Operating expenses of \$143.5 million were incurred in the current quarter, increasing by \$48.1 million (50%) above the 2023 comparative period. This increase was mainly attributable to administrative expenses which increased by \$35.5 million and selling expenses which increased by \$12.6 million over the comparative period. The additional sales and administrative costs were incurred as a result of a comprehensive transformation strategy undertaken by the company. This strategy encompassed significant emphasis on staff training, hiring of seasoned professionals, and the reorganization of the sales, administrative and leadership teams.

For the three months ended 31 March 2024, finance costs increased by \$0.9 million to a total of \$1.5m for the quarter.

Total assets as at March 31, 2024 amounted to \$1.18 billion compared to \$833 million as at March 31, 2023, reflecting a \$353 million or 42% increase. The increase in assets was primarily due to increases in receivables, investments and cash and bank balances.

Total liabilities as at March 31, 2024 were \$602.6 million, an increase of \$257.2 million or 74% over the 2023 corresponding period.

Total shareholder equity increased from \$480.20 million to \$582.81 million, showing a growth of approximately 21.4% above the 2023 comparative period. This increase is primarily attributed to the accumulation of profits.

Overall, the company experienced significant growth in income and assets and the profitability decrease relative to the comparative period last year was due to the major investment in the transformation initiatives. The company's liquidity position remains strong, as evidenced by the increase in cash inflows from operating activities and cash and bank balances.
